### DALLAS, TEXAS.

THURSDAY MORNING : DECEMBER 13

THE New Orleans Democrat wants Kellogg kicked out of the senate, which is sure to be done so soon as the democrats get in the majority.

worked so hard to make Hayes presis dent, should be left out in the cold, the fatted calf. Leano has thrown up the sponge, no

longer laying claim to the presidency of Mexico. He recommends General best man for that position.

Conkling eulogizes Grant's administration expatiating upon the beauties by trading himself into a seat in the like character. Trying to spite Hayes.

The Cincinnati Commercial would have Mr. Boutwell watched while engaged in the revision of the statutes of the United States. Such men as Boutwell need watching upon any and all occasions.

The local of the Houston Age says that that city is rapidly filling up with organ grinders and beggars, and his shocked in consequence. Poor boy, he hath no music in his soul.

Those officers of the law who have made free with the pistol in the arrest of parties are being taught a lesson they are not likely to forget. Several in this state have been imprisoned for ernment established at the expense of shooting at fleeing fugitives, flattering themselves that because the parties were criminals or suspicioned as such, they had a right to use their firearms upon them. The language of the law just emerged from the clutches of a still is plain upon this point. It declares that in effecting an arrest an officer shall not use violence save in self-de-

However, General Ord and other officers of experience in this section differ with General Mason, and state the contrary to be the case. The leased on bond in the sum of \$7,500. general's knowledge of the Rio Grande troubles appears to be rather limited.

### Hanging a Man Twice.

William T. Bergen, who murdered J. McBride at Mount Vernon, Ohio, last June, was hanged at noon Saturday. When the drop fell the noose slipped and Bergen fell heavily to the ground, half strangled. He urged the sheriff to finish the work quickly as he was choking. In about fifteen minutes Bergen was again placed on the scaffold and successfully launched into eternity.

Live Stock in Great Britain.

The diminution of live stock in Great Britain and Ireland within the last few years is causing considerable anxiety in agricultural circles in those counties. There has been a decrease in the number of cattle and sheep in Great Britain since 1874 of seven per cent. There was a steady increase per annum of cattle in the united kingdom from 1866 to 1874, and thenceforward there has been a gradual falling off. The cattle census this year shows only 5,698,000 cattle in Great Britain, which is a loss of 428,000 in three years. At this rate of diminution the head of cattle would be reduced to one-half in about twentys one years. In Ireland the decrease has been more than three per cent. Sheep in Great Britain have decreased to the number of 2,753,000 or seven per cent., while in Ireland there has been a falls ing off of 10; per cent, and yet there is now in Great Britain more land under grass or crops for feeding animals than there was in 1874. The decrease in the number of live stock keptais due to one or both of two causes : either the farms ers are short of money for buying cattle and sheep, or for keeping up the yield of their green crops, or disease has visited live stock with such excessive mor-

It will not be denied but this result is a part of the wonderfully corrupt compact made by which Hayes and Kellogg received a majority at the same election which gave Nicholls, the democratic candidate, decided and a clear majority. It is nearly time now that inconsistencies such as this, and Ir is too bad that poor Packard, who men such as Kellogg, are rendered impossible. The penitentiary and not the United States senate is the place for DISTILLERY & BONDED WAREHOUSES while Kellogg is permitted to devour him, if only a millioneth part of the charges against him are correct. Mr. Kellogg by his own statements is a schemer and an adventurer, a man who has contracted to elect certain men to Escobedo to his followers as the next certain positions, for certain considerations. This has been by his own statement the business of his life, and now he supplements it and crowns his career by

of his civil service, which includes Robesenate, and has come with all the pomp son, Belknap, Babcock and others of and parade of a bewildering success to take possession of his honors. He would have Louisiana, the south and the entire country to forget that he is the creature of one of the most stupendus ous frauds perpetrated during the last five centuries. Stupenduous because of the magnitude of the interests affects ed, as well as by its own proportions. To accomplish this, and satisfy the people, he goes to work in good earnest for the community which he murdered in auricular appendages are severely order to climb to power. He has an illustrious example, it is true, in the southern policy of Mr. Hayes, and such it is -nothing but mere policy, and not the rebuilding of the commercial influence and prestige of New Orleans. This trading idea among aspirants who are liable at any time to become our rulers, is fraught with untold evil, and has already threatened the safety of the govso much blood and treasure. It is time these men should experience a rebuke commensurate with the gravity of their offendings. Mr. Patterson has only unsatisfied law, and the humiliating spectacle of another American senator seeking the benefit of the habeas corpus to hold on to his seat, will soon be repeated. It is time for us to hold up, GENERAL MASON, who appeared before and give our people the reverse of this
